CELEBRATE DIVERSITY

Share in the ongoing celebration at www.monticelloschools.net

One of the goals of the Monticello Central School District and its Board of Education is to seek, acknowledge and celebrate culture and diversity. To achieve this, the district has been implementing the initiative titled, "Monticello Celebrates Culture & Diversity." This includes exploration and learning that utilizes positive cultural references to ensure students get exposed to the beauty, contributions and rich history of diverse cultures. National history months provide additional opportunities to enhance learning.

Hispanic Heritage Month - October
Native American Heritage Month - November
Black History Month - February
Women's History Month - March
International World Heritage Day - April

All school and community members are invited to share in the celebration by visiting the new Culture and Diversity section of the district website to read stories about our students, view a slide show that highlights our initiative, and access the listings of the classroom literature used to reflect culturally diverse authors, people and subjects.

For more information, please contact Monticello Schools Assistant Superintendent for Student Learning Kenneth W. Newman, Sr. at 845-794-7700, ext. 70501.
